

# ASSESSMENTS

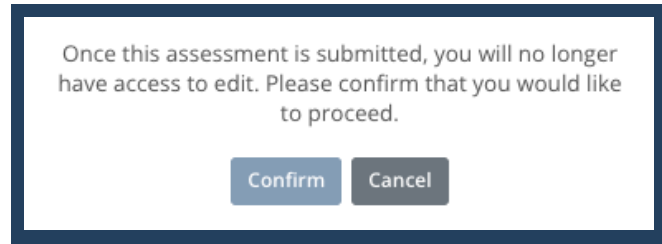

## Completing an Assessment

Once a provider initiates a request for an assessment, you will receive a notification through the Portal after your next login and may also receive an email or SMS if you have notifications enabled in your client profile. You can respond to the request by clicking the notification or selecting the Assessment screen in the navigation pane.

 You have received a request to complete a new Portal Prevention Screening Assessment. Please click here.

Once you click on the banner, the assessment will open, and you can enter your responses and complete the assessment. After pressing **Submit**, you will receive a warning stating that the assessment cannot be edited after submission. Press **Confirm** to successfully submit the assessment.

## Reviewing a Previous Assessment

You have the ability to review previous assessments submitted through the Customer Portal. All previous assessments are available in the assessment history pane. Click on the assessment you wish to review to see your responses. You cannot edit previously submitted assessments.
