

# CALENDAR

You can view a listing of all provider appointments scheduled through Clarity in the Calendar screen of your Portal account. You can select various views including an appointment list, or view by day, week, or month. You do not have the ability to book appointments, make appointment adjustments, or cancel appointments through the Portal at this time. The Calendar feature is designed to include appointment listings only.

To cancel or reschedule an appointment, please reach out to your provider through the Message Center.
