

DOCUMENTS

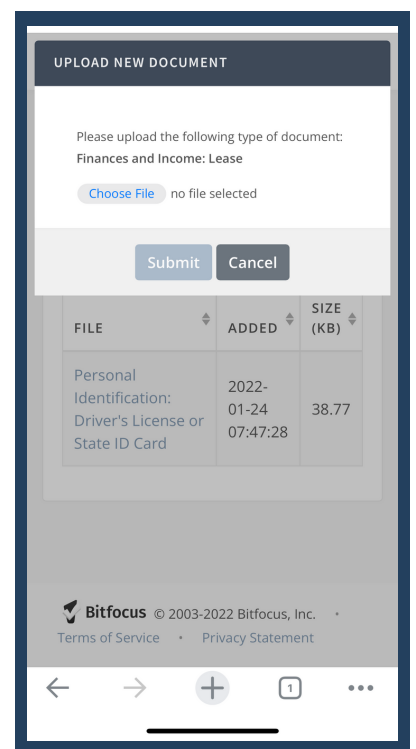

Documents can only be uploaded through a provider request. Once the provider initiates a request, you will receive a notification through the Portal. You can respond to the request by clicking the notification or selecting the Documentation Management screen in the navigation pane.

You can upload the documentation requested from the provider by clicking on the request banner. You can upload a PDF of the document, screenshot, or a photo using your mobile device.

Mobile view:

To submit a document, select the file and click **Submit**, you will receive an additional notification warning stating that submitted documentation cannot be edited. Click **Yes, Continue to Upload** to submit your documentation or **Cancel** to discontinue submission. You can view your previously submitted documentation by clicking on the document in the documentation history.
